About me

Prolific MERN stack web developer with a passion for metrics and beating former "best-yets". Adaptable and driven with strong work ethic and ability to thrive in team-based or individually motivated settings..

Skills

MERN Stack

Other Skills

Front-End : HTML, CSS, JavaScript, React JS, Next JS, Redux, Sass, Bootstrap, Tailwind, Netlify, Vercel, Firebase

Back-End : Node Express JS, Asp.Net, Laravel, My SQL, MSSQL, MongoDB, Heroku, Rest API

Game Dev : Unity, C#, Blender

AI/ML Dev : Python, Tensorflow, Pytorch,

Interests

Software Development, creating application using MERN Stack environment. I also have knowledge of game development with Unity game engine and i like to play with AI/Ml. I have built some small games with Unity engine and ml models with GAN(Generative Adversarial Network) for fun.
